

4 June 1951

MEMORANDUM FOR: OPC DIVISION CHIEFS

SUBJECT : OCI-OPC Coordination

1. Pursuant to agreement between the Assistant Director for Current Intelligence and the Assistant Director for Policy Coordination, CID held a meeting on 31 May 1951 with the principal officers of the Office of Current Intelligence for the purpose of clarifying the kinds of coordination required between the two Offices. It was decided that OCI reports would be cleared with OPC/ID prior to publication. The purpose of this is to insure that OPC's operations are properly taken into account when items of intelligence are discussed. Drafts of forthcoming OCI intelligence memoranda will be passed to OPC for coordination before publication.

2. It was further decided that OCI would debrief OPC travelers for intelligence purposes upon their return from the field. The OPC Division Chief of the area from which the traveler returns will determine the security sensitivity of the traveler and in consultation with CID will satisfy himself that proper security in relation to the debriefings is maintained. Where necessary the debriefing can be done within OPC guided by requirements obtained from OCI. It is hoped that most of the debriefings can be done by two or three persons from OCI.

3. I have just received from OCI the following statement:

"At the present time the DCI is most concerned with the following intelligence problems: .

"1. Korean-Chinese Communist-Soviet complex, specifically the Communist air capability and intent to use.

"2. The Iranian crisis.

"3. Yugoslavia and the Balkan complex.

"4. Berlin, specifically the possibility of renewing the Blockade."

4. It is suggested that the Division Intelligence Officers inform CID of returned travelers in order that such requirements as those outlined in paragraph 3 above may be satisfied by OPC when available.
